

Remarks

None of the changes proposed above add new matter to the application. The changes are made so that the title of the above-captioned patent application reflects that the allowed claims relate to methods (but not systems) for characterizing optical systems using holographic reticles.

Respectfully submitted,

STERNE, KESSLER, GOLDSTEIN & FOX P.L.L.C.

A handwritten signature in black ink, appearing to read "Timothy A. Doyle". The signature is written in a cursive, flowing style with a large initial 'T'.
